- Solid knowledge of web development's tools such as Adobe Package, HTML5, CSS3, CMS, Wordpress and JavaScript;
- Experience in liaising between two organizations to communicate and coordinate their activities;
- High performance in building client's relationship;
- Excellent communication skills including solid verbal, written and listening skills.

Education

Associate Degree in Web/Multimedia Management and Webmaster at UNIP – Universidade Paulista (2010)

Professional Background

Agency Technical Liaison

Google (Nov/2015 to Nov/2016)

Working with Google marketers and their marketing agencies to help and coordinate the launch of internal and external projects (websites) for Google. Assessing and triaging incoming requests from Project Marketing Managers focusing on LatAm region, helping agencies understand Google's technical and security requirements. Helping both, agencies and marketers, navigate Google's security and code review processes, and ensuring that interactive experiences launch safely, securely and snag-free.

Web Production Lead

Concentrix (May/2014 to Nov/2015)

As a leader of web activities on global level on Samsung.com and Hyundai Motor Brazil projects, I was responsible to keep (build and work on) client relationship with Digital Marketing Managers from Latin America and North America regions and local agencies. Coordinating and working on client requests, handling all new inquiries and updates on client website, assuring delivery excellence working together with production team, always keeping a constant interaction and feedback with them to assure/maintain a smooth production.

Web Production Support & QA Lead

IBM (Dec/2009 to May/2014)

Started my career at IBM as a Web Builder and in 2011 I was promoted to the Web Production Support position, where I had the opportunity of managing the flow of Samsung.com website update on global level but focusing on the American continent, assist to Web Production Leaders in extracting and preparing the content that will be published on Samsung.com pages for Latin America/North America regions, ensure Data Quality, act as local Quality Assurance Lead and local Technical Lead.

Intern

Digerati Editor (Feb/2008 to Dec/2009)

Retouching, selecting and recovering images. Daily publisher of website. Creation of Flash banners, wallpapers and graphic images. Fixing and updating the pages inside the website when necessary.
